Jack4Pair™ TERMINATION TOOL

P/N: W4PKJTOOL-S Jack4Pair™, Termination Tool for Keystone Jacks.

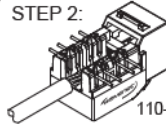

Termination

STEP 1:

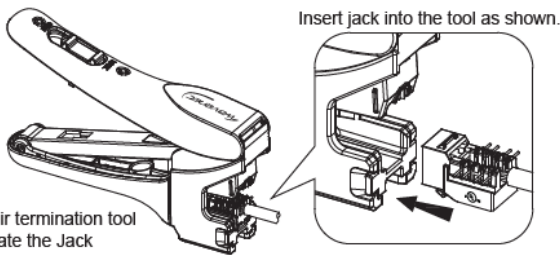

STEP 2:

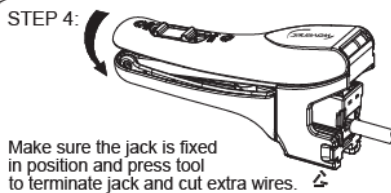

Choose either T568A or T568B wiring and press the wires through the 110-IDC to prepare for final termination. For best performance, minimize the untwisting of individual pairs to (0.5") max.

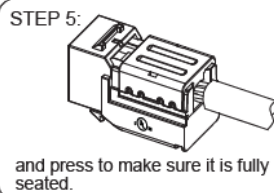

STEP 3:

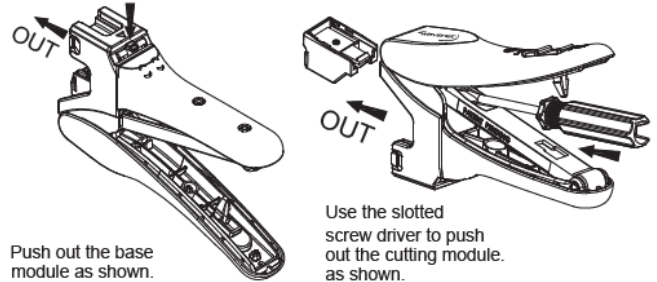

STEP 4:

STEP 5:

Cutting Module Assembly

Handle Lock
